IRIS CITY

GARDENS

1950

Vigorous Washington grown Iris are noted for their ability to produce gorgeous blooms on account of our ideal soil and climatic conditions. We guarantee that you will not be disappointed with the size and energy of our rhizomes. Walla Walla Valley with its hot, dry summers and cool winters makes it the perfect breeding ground for Iris.

WHITE WEDGEWOOD (Grant '43) A smooth porcelain-white with strong substance. Blue at base of beard makes it appear ethereal. Cool, clear loveliness. \$2.00

We have been growing flowers for many years, experimenting with soils, fertilizers etc., to get the best results. We have found that we get the strongest and sturdiest plants, with less disease, by the use of compost, than by any other method.

Our flowers are larger and more vivid in coloring and appear to be more disease resistant. We shall continue to experiment in the hope of finding the ultimate in methods and results.

We guarantee healthy stock, true to name, and that it reaches you in good condition, but cannot guarantee the growth in your garden, over which we have no control. However, we want all of our customers satisfied. If for any reason you are not satisfied, please write us about it. If stock is sold out, your money will be refunded.

Terms are cash with order, check, draft, or money order. Shipments of rhizomes will be made from July 15 on.
